PATH_Report 0

- **Part 1 Plan**

Name: PATH

Introduction:

This project aims to create an app in which the users can record a single path they have walked, skateboarded or parkoured by redefining the roads' name and function as they like and sharing it to anyone who is using PATH.

On the other hand, users can find those paths which have been redefined and go through it for themselves. When they are on this "redefined" path, they can see the spots the definer tagged and share their feelings after and while finishing this journey.

What we want to do is making going outdoor more intriguing and offer people a brand-new perspective to look at the city.

- **Part 2 Group Members**

Name	Phone Number	Duty
YU YENCHIA(俞彦嘉)	18121330102	Team management, Problem solving and function design, Architecture design, Coding, Testing, etc.
Zhao Yun（赵云）	18916378790	Problem solving and function design, High level design, Coding, UI design, Testing, etc.
Zhao Binqi（赵彬琦）	18001998402	Problem solving and function design, High level design Coding, Investigation, Advertising, Testing, etc.

(Left Zhao Binqi, middle YU YENCHIA, right Zhao Yun)

- **Part 3 Search**

Platform: xcode, visual studio, etc.

Coding language: Objective-C & Swift
